## RESIST CRUISE AT MOLESWORTH!

### A set of twelve postcards

This set of twelve postcards, published by Peace News, shows the variety of on-site resistance to the building of Britain's second cruise missile base at Molesworth, Cambridgeshire.

The set includes "classic" images of the peace movement's response after the evictions and erection of the razor wire on February 6 1985—cutting the razor wire in the snow; holding a peace service outside "Eirene"...

The set goes on to show images from different "Pledge Scheme" days of action—people climbing into the base; holding a gate party; hanging banners to the wire. It also includes images from the Easter CND demo and from the Ploughshares Campaign.

Finally there are images of action at nearby USAF Alconbury. Why Alconbury? Because this enormous US base situated a few miles away is destined to be the command and control centre for cruise at Molesworth.

Here is a collection you can use to spread the word about Molesworth. It's ideal as a display for local campaign work, or for sticking on your own wall, or, of course, for sending to friends and opponents through the post.

RESIST CRUISE AT MOLESWORTH!
