

## **CAMPAIGN LAUNCHED AGAINST THE ARMS TRADE**

The Campaign Against the Arms Trade aims to "secure some moves towards the stopping of some arms sales by educating Public Opinion, focussing attention on a particular Corporation selling arms and ensuring that the subject is more fully examined in political debate... It is expected, indeed hoped, that this campaign will lead people to question the economic and political system that facilitates the Arms Trade".

The campaign has been launched by a coalition of peace organisations. As it has been given shares in EMI, some of

its members hope to attend the EMI Annual General Meeting on 11am to raise questions about EMI's production for the military.

CAAT will campaign against all forms of arms sale, to remove private profit from such sales and to stop arms deals financed with public money. The campaign has produced leaflets (available for postage costs) a reading list on the arms trade (send sae), an information kit (50p) and posters (15p).
